

5

REMARKS

This application has been carefully reviewed in light of the Office Action dated March 6, 2008, wherein:

10

A. The specification and Claim 11 were objected to because of informalities.

15

The Examiner objected to the specification because it did not list patent numbers and issue dates for several of the granted patent applications to which the present application claims priority. The Examiner also objected to Claim 11 because of several informalities, including that line 2 of the Claim reads “for treatment on cancer cells” and step(c) of the method reads “Zinc Acetate.” The Examiner suggested replacing these terms with “for treatment of cancer cells” and “zinc acetate,” respectively.

20

The Applicant respectfully directs the Examiner’s attention to the amendments to the specification and Claim 11 on pages 2-6 of this response. The Applicant has amended the specification and Claim according to the Examiner’s suggestions. In light of these amendments, the Applicant respectfully submits that the specification and Claim 11 are now in condition for allowance.

25

B. Claims 11, 14, and 16 were rejected under 35 U.S.C. 103(a) as being obvious over Tsai U.S. Patent 6,720,311 (“the ‘311 Patent”); Lebreton et al. J. Clin. Invest. 64:1118-1129, 1979 (“Lebreton”); and Aebersold et al. U.S. Patent 7,183,118 (“the ‘118 Patent”).

30

The Examiner rejected Claims 11, 14, and 16 as obvious over the ‘311 Patent, Lebreton, and the ‘118 Patent. The Examiner noted that the ‘311 Patent constitutes prior art only under 35 U.S. 102(e). The Applicant respectfully disagrees and believes this rejection was made in error. A reference can qualify as prior art under 35 U.S. 102(e) only if the invention is made “by another.” See 35 U.S.C. 102(e). However, the sole inventor of both the ‘311 Patent and the present application is David Tsai. A copy of each oath of David Tsai for the ‘311 Patent and the present application are attached hereto as Exhibit 1 and Exhibit 2. As the ‘311 Patent is not an

35

5 invention made "by another", the '311 Patent does not constitute prior art. The Applicant respectfully requests that this rejection under 35 U.S.C. 103(a) of Claims 11, 14, and 16 be withdrawn because the '311 Patent does not constitute prior art and it therefore cannot be combined with the other references cited to provide a proper basis for the rejection.

10

CONCLUSION

The Applicant respectfully submits that in light of the above comments and remarks, Claims 11, 14 and 16 are in allowable condition. The Applicant thus respectfully requests timely allowance of all of these pending claims.

15

If the Examiner believes that a telephone or other conference would be of value in expediting the prosecution of the present application, enabling an Examiner's amendment or other meaningful discussion of the case, Applicant invites the Examiner to contact Applicant's representative at (310) 777-8399.

As the below named inventor, I hereby declare that:

My residence, mailing address, and citizenship are as stated below next to my name

I believe I am the original and first inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled:

Alpha 2HS Glycoprotein for Treatment of Cancer and a Method for Preparation Thereof

(Title of the Invention)

the specification of which

☒ is attached hereto

OR

☐ was filed on (MM/DD/YYYY)

as United States Application Number or PCT International

Application Number and was amended on (MM/DD/YYYY) (if applicable).

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment specifically referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b) of any foreign application(s) for patent, inventor's or plant breeder's rights certificate(s), or 365(a) of any PCT international application which designated at least one country other than the United States of America, listed below and have also identified below, by checking the box, any foreign application for patent, inventor's or plant breeder's rights certificate(s), or any PCT international application having a filing date before that of the application on which priority is claimed.
